## SUMMARY

---

Full-Stack Visual Designer with 7+ years of experience spanning live-event production, product UI, and 3D visualization. I develop stage concepts from creative briefs through to live execution, design interfaces that measurably improve user performance, and build 3D visuals that anchor real productions. Hands-on with VJ content and AV operations, I deliver work that performs live, pairing design craft with technical reliability.

## EXPERIENCE

---

- |                                                                                                                                                                                                                                                                                                |                   |
